

An Interactive Visual Analysis of NYC Arrest Patterns

1. Data Sources

{ NYPD Arrest Data from
311.nyc.gov open data }

2. Brainstorming / Conceptual Framework

3. From questions to visualizations

Time Patterns

- trend over time
- seasonality
- day x hour heatmap

Where (Space)

- map of arrest density
- borough choropleth
- hot spots

offense mix

- offense level
- offense distribution
- stacked bar by borough

Demographics

- age/sex/race
- group comparison

Text/Themes

- topic clusters

Network View

- offense-co-occurrence network

4. Analytical Pipeline

Data cleaning & preprocessing

Exploratory Analysis

- summary stats
- initial visuals

Advanced Analysis

- spectral/network analysis

Visualization & Dashboard

- static plots
- interactive app

Deployment

- streamlit cloud
- sharing insights
